

Mechanic Insight Survey

We are working on building a mobile solution that helps car owners quickly understand and respond to vehicle problems. To make this effective, we need insights from experienced mechanics like you who deal with these issues every day.

This survey is designed to understand common car problems, how they are diagnosed, and the challenges customers face when handling them. Your input will help us create a practical, reliable tool that supports both mechanics and car owners.

1. What are the most common car problems you encounter

- ☐ Engine issues
- ☐ Battery problems
- ☐ Brake failure
- ☐ Transmission problems
- ☐ Electrical faults
- ☐ Overheating
- ☐ Suspension issues
- ☐ Oil leaks
- ☐ Other: _____

2. Which dashboard warning lights are most frequently misunderstood?

- ☐ Check engine light
- ☐ Oil pressure warning
- ☐ Battery warning
- ☐ Brake system warning
- ☐ Temperature warning
- ☐ ABS warning
- ☐ Airbag warning
- ☐ Other: _____

3. Can engine sounds reliably indicate specific faults?

- ☐ Yes, very reliably
- ☐ Sometimes

- ☐ Rarely
- ☐ Not at all

Optional comment:

4. What types of sounds correspond to specific issues (e.g., knocking, squealing)?

- ☐ Knocking → Engine problems
- ☐ Squealing → Belt/brake issues
- ☐ Grinding → Brake or gearbox issues
- ☐ Clicking → Electrical/starter issues
- ☐ Hissing → Leak (air/coolant)
- ☐ Other: _____

5. How do you usually diagnose a car problem?

- ☐ Visual inspection
- ☐ Listening to engine sounds
- ☐ Diagnostic scanner (OBD)
- ☐ Test driving the car
- ☐ Customer explanation
- ☐ Trial and error
- ☐ Other: _____

6. Do you think a mobile app can help in early diagnosis?

- ☐ Yes
- ☐ Maybe
- ☐ No

Why? (optional)

7. What limitations should such an app consider?

- ☐ Misdiagnosis risk
- ☐ Lack of physical inspection
- ☐ Internet dependency
- ☐ User misunderstanding instructions
- ☐ Device limitations (microphone, sensors)
- ☐ Too much complexity
- ☐ Other: _____

8. What advice would you give to car owners when a warning light appears?

- ☐ Stop driving immediately
- ☐ Check the issue quickly
- ☐ Continue driving but monitor
- ☐ Visit a mechanic as soon as possible
- ☐ Depends on the warning light
- ☐ Other: _____

9. What basic problems can car owners fix without a mechanic?

- ☐ Changing battery
- ☐ Replacing engine oil
- ☐ Changing tires
- ☐ Replacing air filter
- ☐ Refilling coolant
- ☐ Brake pad replacement
- ☐ None (should see a mechanic)
- ☐ Other: _____

10. Would you recommend video tutorials for simple repairs?

- ☐ Yes
- ☐ No
- ☐ Only for basic fixes

11. How accurate should such an app be to be useful?

- ☐ Very high (almost perfect)
- ☐ High
- ☐ Moderate
- ☐ Basic guidance is enough

12. What mistakes do car owners commonly make?

- ☐ Ignoring warning lights
- ☐ Delaying repairs
- ☐ Using wrong parts
- ☐ Poor maintenance
- ☐ Trying to fix complex issues themselves
- ☐ Not explaining issues clearly
- ☐ Other: _____

Thank you for taking the time to complete this survey. Your experience and insights are extremely valuable to us. We will use your feedback to build a

solution that makes it easier for car owners to identify issues early and for mechanics to better support their customers.
